

WORKERS' COMPENSATION

MAKING YOUR BUSINESS
SAFER AND STRONGER.

WHAT IS WORKERS' COMP?

In the event of a workplace injury or illness, workers' comp is the only insurance that provides medical and income benefits for your employees as well as legal protection for your business. It can pay for medical bills, lost wages, disability benefits and more. Workers' comp is the best protection against the consequences of on-the-job injuries, for you and your employees, regardless of fault.

TRUSTED SINCE 1991

With more than 76,000 Texas businesses relying on us to care for their 1.5 million employees, Texas Mutual is the leading workers' comp provider in the state. We're committed to building a stronger, safer Texas.
